

## ***Hello\_Server Reseller Rules !***

Dear Resellers of Hello\_Server Client,  
here are the Rules and Prices for Hello\_Server Client:

Daily Limit	EnduserPrice	ResellerPrice
3	250	200
5	400	300
10	700	500
15	1000	700
20	1300	900

### Pricelist:

We have 5 different Types of Accounts which have different Daily Limits.  
The calculation is very simple, every Account has a Warranty  
and a Validation of 14 Days of Payment,  
so in case Server will not work anymore, you will get money back by unused  
credits. i.e. Account type 2, 5 Daily Code Limit. After 7 Days Server is down.  
You get 50% refunded which would be in that case 150euro.

The Prices are calculated as follows:

Account Type 3, 10 Daily Code Limit

$10 \text{ Codes/Days} \times 5\text{euro} \times 10 \text{ Days} = 500\text{euro}$

Endcustomer Price must be min. 7euro. So in that case you should sell client  
for 700euro. So your profit is at least 200euro with this Account.

As higher the Account as higher your Profit.

### Turnaround Times:

Monday-Friday 8am – 10pm GMT+1 direct, few minutes you have codes back.

The Client will accept requests on Saturday and Sunday, but Codes will be given  
back on Monday morning.

Daily Limit will be reseted every day at 23: 55pm GMT+1, this means if you make  
one day 3 codes on a 5 daily limit account, you will have 5 credits after reseting  
And not 8 (3+5). Unused Credits of the Day will be set 0, and only Daily Limit  
of Account Type will be added!
